

MinJournal

Ingrid Heitmann, Oslo University Hospital -
Norway

MinJournal

Discharge notes;

- all types of patients
- approx. 55 000 in total

Chronic care module;

- patients with diabetes
- Approx. 5000 in total

Target number for evaluation is 100 in total.

Innovative aspect (technical)

- Design of complex visualization tool with use of HTML5, SVG (complex graphics), JQuery

MinJournal

Skills of patients (required and training)

- No skills or training required
- With visualization tool (dia:clock) we see that a user demonstration video is of importance

Attitude of professionals (required and training)

- Change of work processes with introduction of new tool
- Challenging to change work habits
- Max 2 hours in plenum sessions

MinJournal

Challenges in implementation

- a major challenge in being innovative and creating innovative technical solution, when hospitals ICT-systems are not up to date.

Thank you for your attention

This is a project funded by the European Commission as part of the Competitiveness and Innovation Framework Programme - ICT Policy Support Programme
